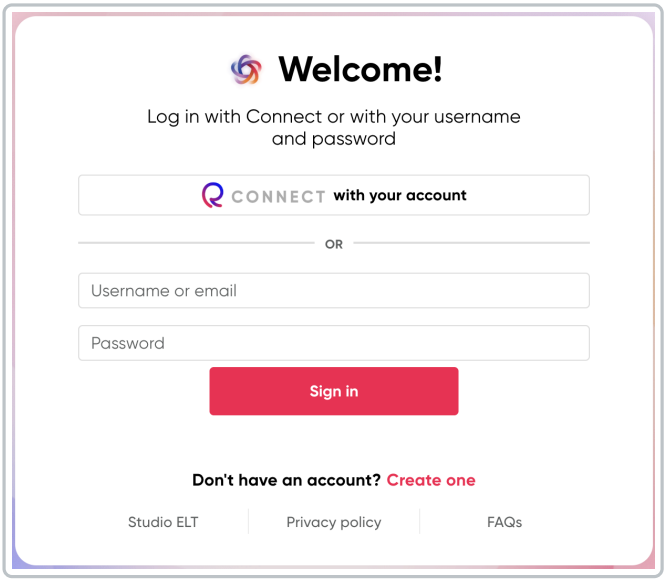
To access the Studio Platform, it is essential to first have an active registration in Santillana Connect or EDi. If you do not yet have these credentials, you must request them directly from your Educational Institution, as they are necessary to ensure proper access to the platform and the assigned resources. More information HERE 👆.

Follow these steps 👣:

1. Go to the official login page of the Studio Platform.

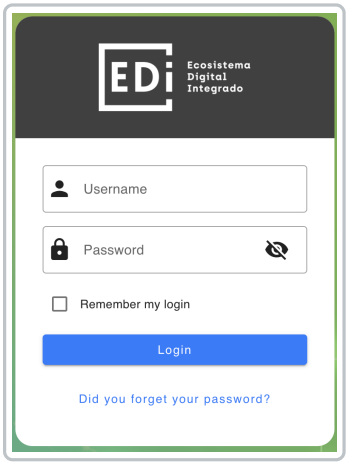


2. On the login screen, you can choose one of the following options:
   - Log in directly with your registered username and password.
   - Select the login option via Santillana Connect.

3. If you select Santillana Connect:
   - Enter your corresponding username and password.
   - Verify that the information is correct before continuing.

Your browser does not support HTML5 video.

4. If your access is through EDi:
   - Enter your assigned username and password.
   - Confirm that your credentials are updated and active.



Your browser does not support HTML5 video.

5. Once the required information is completed, click the Log in button to access the platform.

6. In Compartir, enter your username and password.

Your browser does not support HTML5 video.

7. Click **Log in.**

Token Access

If the purchased material requires token access, it will be necessary to complete the corresponding registration process beforehand and enter the assigned token during that process.

Important:

- The token is printed on the sheet included with the purchased material.
- This sheet is located on the inside of the front cover (the second cover of the book).

Additional recommendations:
* Keep your credentials and token in a safe place.
* If you experience access issues, consult your educational institution or support.
* Double-check that your username, password, or token are typed correctly to prevent login errors.
