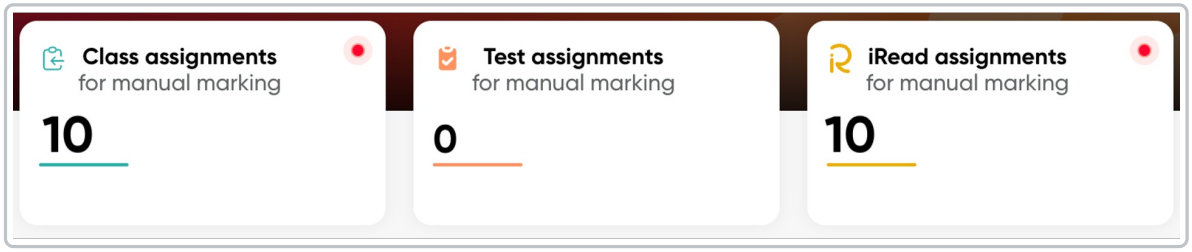
The Assignments widget provides teachers with a quick and clear overview of activities pending manual grading within the platform.



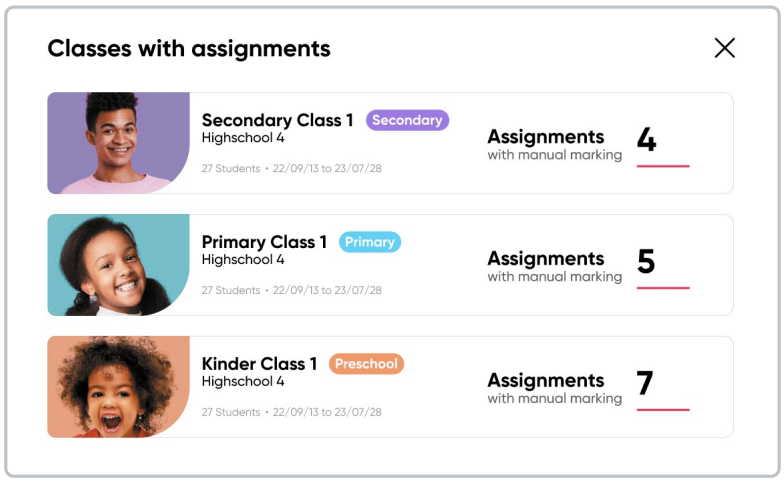
Why is it great?

This widget centralizes key information about assignments that require review, enabling timely follow-up and improving efficiency in the assessment process.

It allows teachers to quickly identify, prioritize, and access assignments pending manual grading.

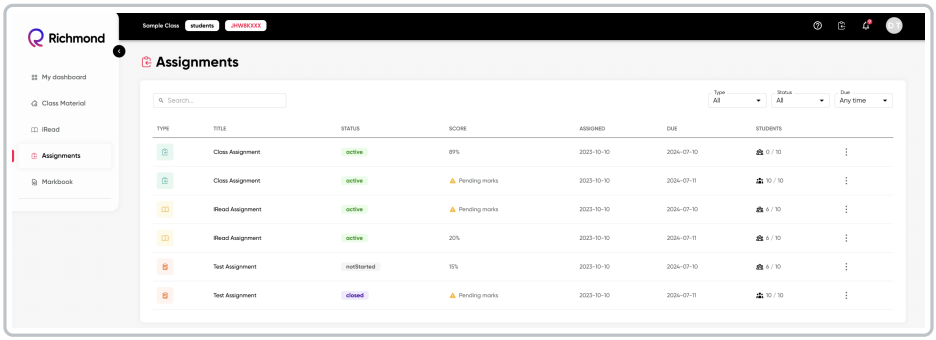
How does it work?

- The widget displays the total number of assignments pending manual grading.
- It acts as a shortcut: when clicked, the teacher is redirected to a detailed view of the pending ssignments.
- Tasks are organized by educational level (preschool, primary, or secondary).
- The teacher can select a specific class to review its ssignments.
- Upon selecting the class, they can access the section of<Assignments section>, where all activities are displayed.



Assignments with pending grading are identified by a visual indicator (a yellow triangle), making them easy to

locate immediately.



Benefits

- Provides immediate visibility of pending assignments.
- Helps teachers prioritize and manage their time effectively.
- Reduces the risk of overlooking important assessments.
- Improves grading turnaround times.
- Offers direct navigation to relevant assignments.

Keep in mind:

- The counter updates in real time.
- Navigation maintains a clear flow: (level → class → activity).
