Direct Access to Assignments

Notifications now include a direct link to assignments, allowing you to open them immediately without having to search for them.

Your browser does not support HTML5 video.

Teachermatic is now TeacherAI Companion

The name **Teachermatic** has been changed to **TeacherAI Companion** for users, improving the overall user experience.

Past cycles will no longer be hidden

Past groups should only be hidden when the current user is in their most recent cycle—that is, their active cycle.

Therefore, past groups should **not** be hidden when:

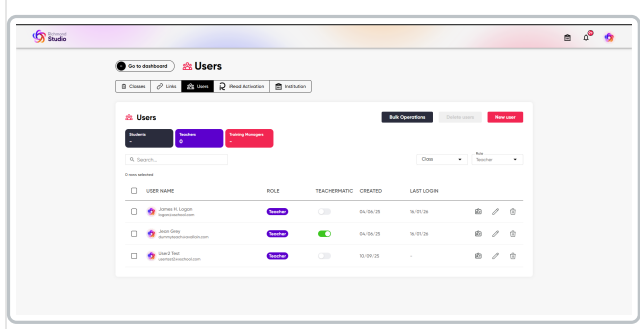

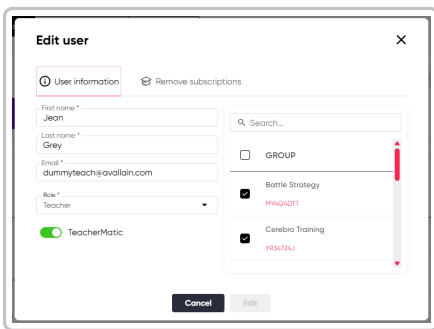

- The current user has no cycles (they come from a native institution rather than an integrated one).
- The current user navigates to a past cycle.

Your browser does not support HTML5 video.

TeacherAI Companion view (formerly Teachermatic)

Country Training Managers are now the only users who have access to the TeacherAI Companion (formerly Teachermatic) settings, available under: **Settings** → **Users** (TeacherAI Companion column).

Proper Navigation on Android Devices

The platform has been optimized for Android devices (both mobile and tablet) to ensure proper navigation.

Use <ESC> to exit the Assignments Section

To leave the **Assignments** section, pressing the Cancel button is no longer required; you can also press the <ESC> key to close it.

<Games> on Android devices are now properly adapted

When accessing the <Games> on Android devices, they are now optimized to ensure proper display and usability.

Two views available in Offline mode

While navigating in offline mode, two views are available:

- Tree View
 - Standard View
-

Pagination in the CMS

When accessing the Studio CMS in the <Token Batches> section, you can now switch between pages without any issues.
