Activities

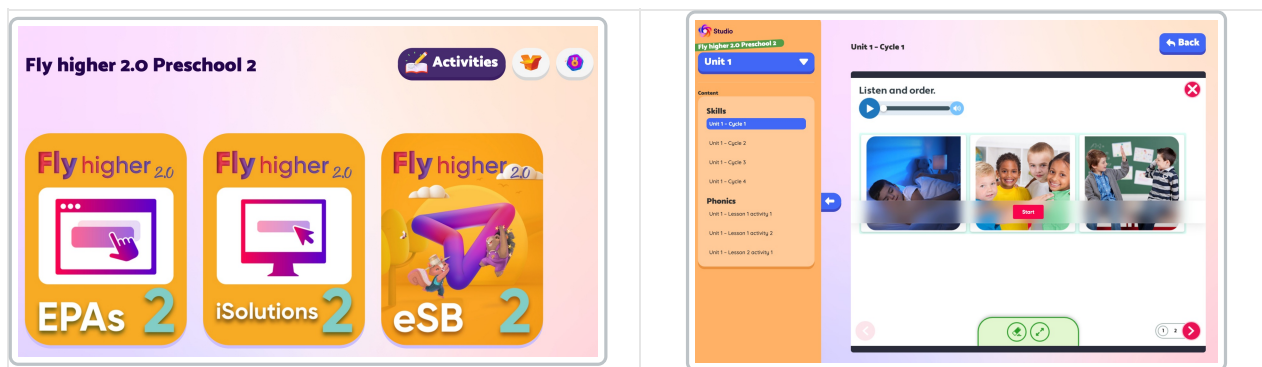

[Leer artículo en español](#)

Ver artigo em português

This section allows students to practice and reinforce course content through interactive learning experiences. Here, they will find exercises organized by units, cycles, lessons, and specific skills, designed to support learning in a dynamic and progressive way.

Activities are digital exercises that help students develop comprehension, listening, reading, pronunciation, and vocabulary skills, depending on the assigned content.

Types of Activities Available

- **Skills:** Activities focused on developing language skills.
- **Phonics:** Exercises designed to reinforce sounds, pronunciation, and the relationship between letters and sounds.
- **Interactive Activities:** Exercises that may include multiple-choice questions, sorting, drag-and-drop tasks, listening activities, and more.

How to access the Activities section?

1. Log in to the corresponding product from the platform.
2. Select the **Activities** tab located at the top of the screen.
3. The available resources for the selected level will be displayed, for example:
 - EPAs
 - iSolutions

- eSB

4. Click on the resource you would like to explore.

How to access an activity?

1. Select the **Unit** you would like to review from the side menu.
2. Explore the available categories, such as:
 - Skills
 - Phonics
3. Click on the desired activity.
4. Press the **Start** button to begin.
5. Follow the on-screen instructions and complete the activity.

Activity Elements

Depending on the type of exercise, you may find the following elements:

- **Audio**
 - Allows students to listen to instructions, dialogues, or vocabulary.
- **Images**
 - Help students understand and connect concepts through visual support.
- **Navigation**
 - Navigation buttons allow students to move between pages or activities.
- **Full Screen**
 - Provides a larger view for easier access to the content.
- **Activity Reset**
 - Allows students to repeat the exercise and practice again.

Benefits

- Reinforces content covered in class.
- Encourages independent learning.
- Allows students to practice as many times as needed.
- Combines visual and audio resources to enhance understanding.
- Helps develop specific language skills progressively.

Keep in mind

- Some activities require audio, so it is recommended to use headphones or speakers.
- It is important to follow the suggested order of units and lessons for the best learning experience.
- Students can repeat activities to reinforce knowledge and improve their results.
- The availability of activities may vary depending on the product or level purchased.

Recommended Devices for Preschool

For the best experience when navigating, viewing, and interacting with the content, **the use of an iPad is strongly recommended.**

Activities can also be completed on other compatible tablets; however, the overall experience may vary depending on the device specifications, operating system version, screen size, and web browser being used.

Resources

[Leer artículo en español](#)

Ver artigo em português

This section brings together supplementary materials that support learning both inside and outside the classroom. Here, families and students can access multimedia content, practice materials, visual tools, and downloadable resources that enrich the educational experience.

Resources are support materials designed to reinforce course content through different formats, allowing students to practice, review, and learn in various ways according to their needs.

Available resources may include:

- **Audios**
- **Animated Readers**
- **iFlashcards**
- **iPosters**
- **Phonics**
- **Post-Reading**
- **Templates**
- **Values Videos**
- **Language Classroom Cards**

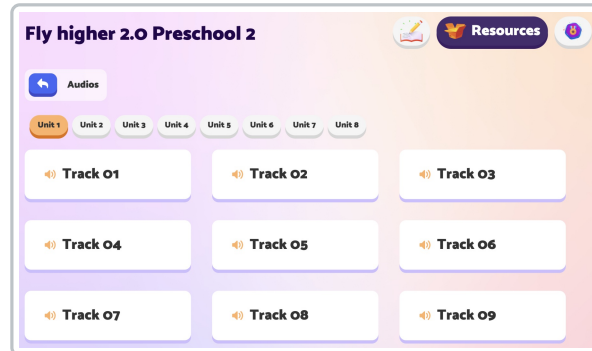

How to access the Resources section?

1. Log in to the corresponding product from the platform.
2. Select the **Resources** tab located at the top of the screen.
3. All available resources for the selected level will be displayed.
4. Click on the resource you would like to view.

Available Resources

Audios

Audio files designed to help students develop their listening comprehension and pronunciation skills.

How to use them?

1. Select **Audios**.
2. Choose the desired unit or content.
3. Press the **Play** button.
4. Listen to the instructions, songs, dialogues, or vocabulary.

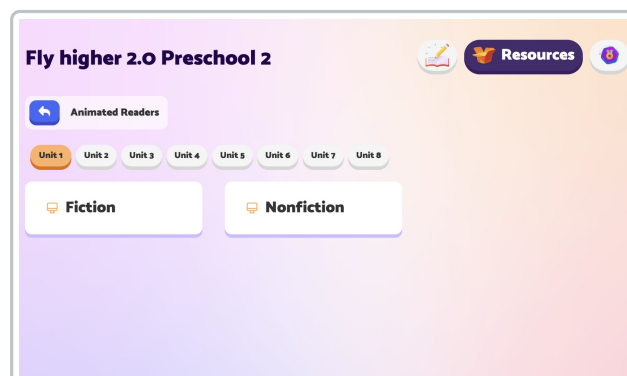

Benefits

- Improves listening comprehension.
- Reinforces pronunciation skills.
- Helps students recognize and understand sounds and words in English.

Animated Readers

Animated stories designed to promote reading and listening comprehension.

How to use them?

1. Select **Animated Readers**.
2. Choose an available story.
3. Play the video or animation.
4. Follow along with the reading while viewing the illustrations.

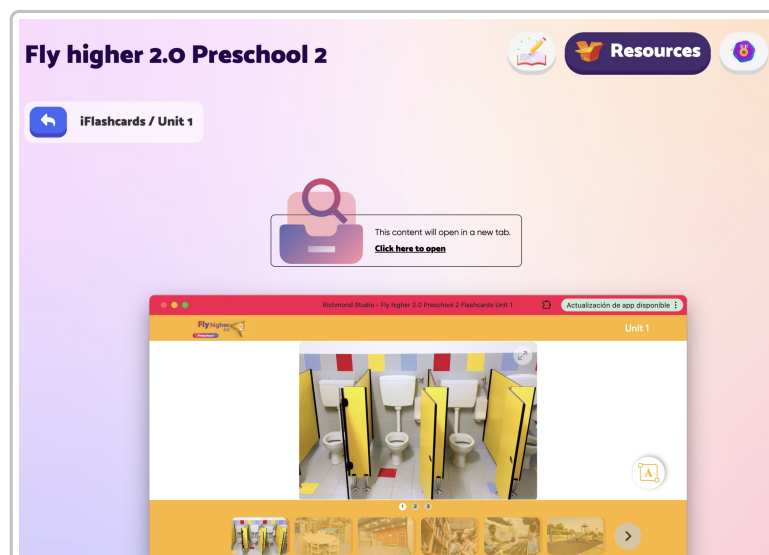

Benefits

- Increases interest in reading.
- Enhances comprehension through visual support.
- Reinforces vocabulary and language structures.

iFlashcards

They are digital flashcards that use images and vocabulary to help students practice key concepts.

How to use them?

1. Select **iFlashcards**.
2. Browse the available flashcards.
3. Look at the image and listen to or read the corresponding vocabulary.

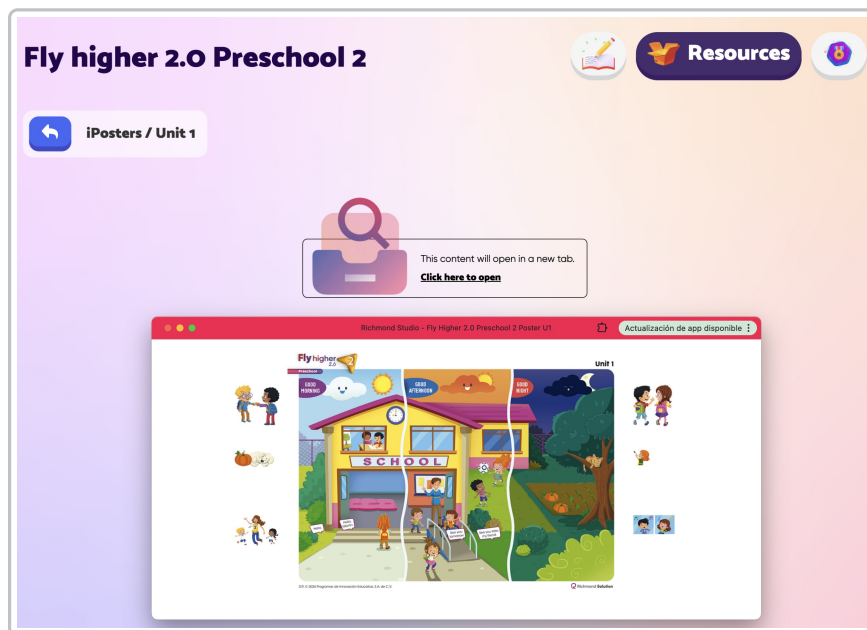

Benefits

- Support memorization.
- Facilitate visual learning.
- Reinforce vocabulary in a quick and engaging way.

iPosters

Illustrated digital posters that present information and vocabulary in a visual format.

How to use them?

1. Select **iPosters**.
2. Open the poster you would like to view.
3. Explore the elements and concepts presented in the poster.

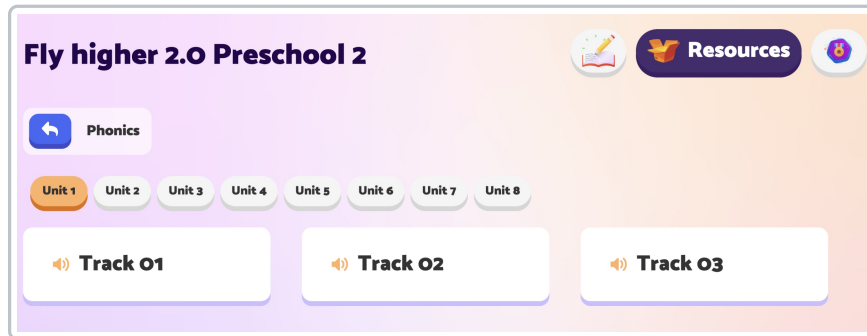

Benefits

- Support visual learning.
- Strengthen the association between images and words.

- Help students understand specific topics more effectively.

Phonics

They are specialized resources designed to help students learn **sounds, letters, and pronunciation**.

How to use them?

1. Select **Phonics**.
2. Open the desired lesson.
3. Listen to and practice the sounds presented.

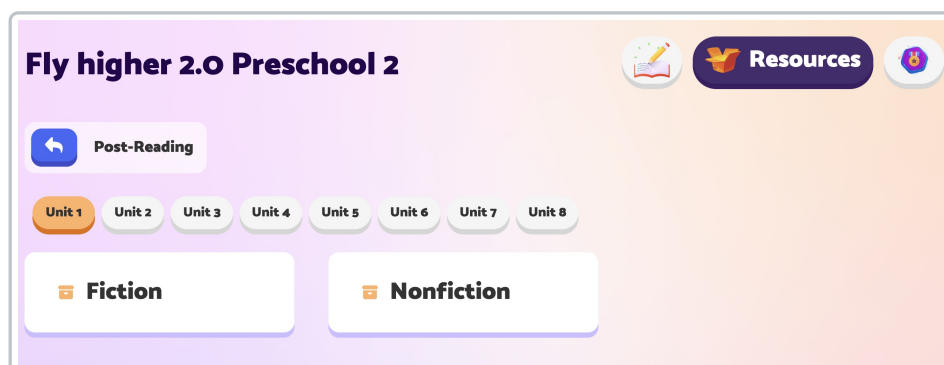

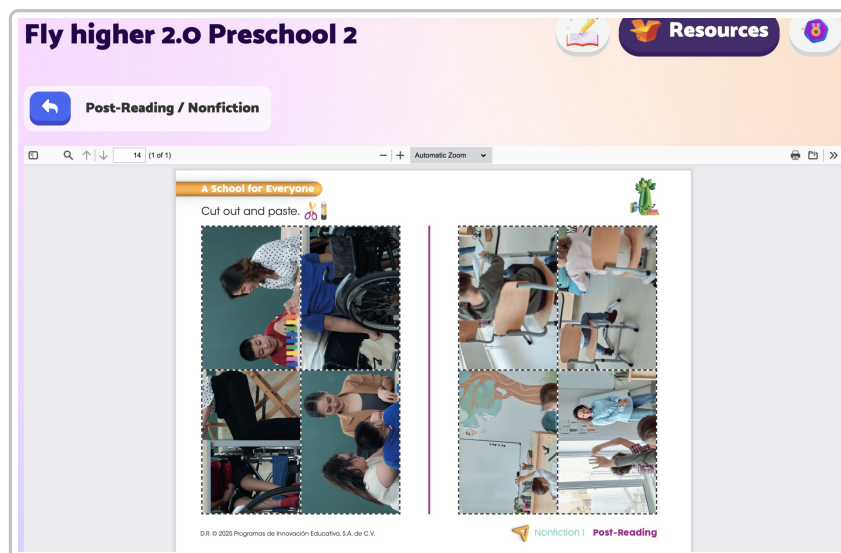

Benefits

- Improves pronunciation.
- Strengthens early reading skills.
- Helps students identify sound patterns in the language.

Post-Reading

They are follow-up materials designed to complement a previously completed reading activity.

How to use them?

1. Select **Post-Reading**.
2. Choose the content related to the reading activity you have completed.
3. Complete the suggested activities.

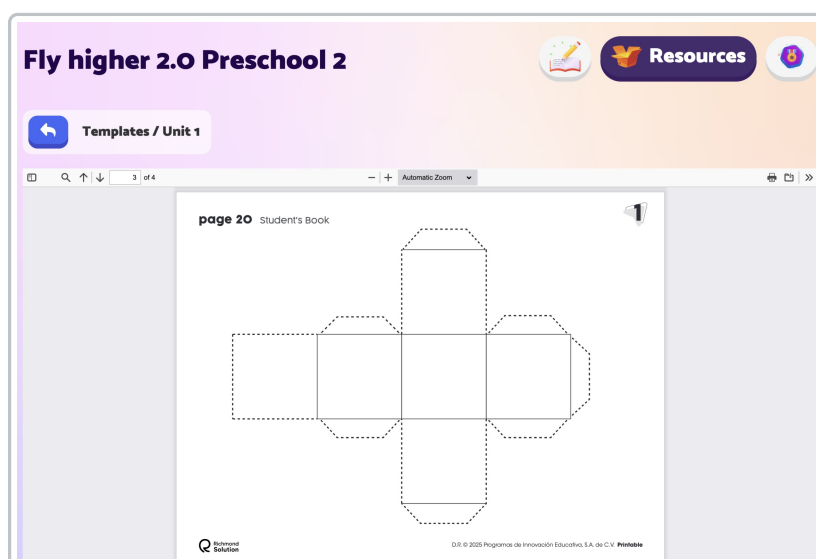

Benefits

- Reinforces reading comprehension.
- Encourages reflection on the reading.
- Helps consolidate knowledge and understanding.

Templates

They are downloadable and printable templates designed for completing supplementary learning activities.

How to use them?

1. Select **Templates**.
2. Download or open the template.
3. Complete the proposed activity.

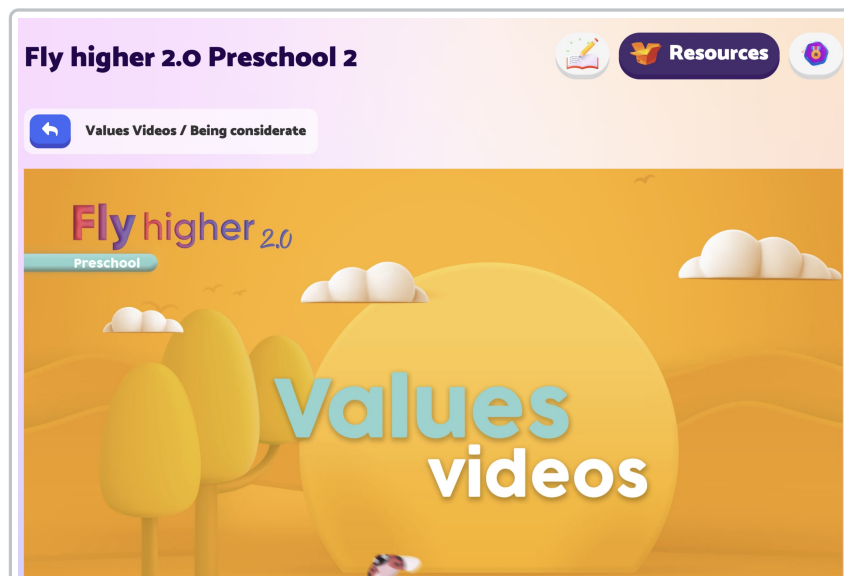

Benefits

- Encourage hands-on learning.
- Allow students to complete activities outside the platform.
- Involve families in the learning process.

Values Videos

They are educational videos focused on values and social-emotional skills.

How to use them?

1. Select **Values Videos**.
2. Choose an available video.
3. Watch the content and discuss the topics presented.

Benefits

- Promote positive values.
- Encourage reflection and meaningful discussions.
- Support the student's overall development.

Language Classroom Cards

They are support cards that present commonly used classroom expressions and language used in educational settings.

How to use them?

1. Select **Language Classroom Cards**.
2. Browse the available cards.
3. Practice the expressions shown on the cards.

Benefits

- Reinforce everyday language.
- Support communication in English.
- Help students build confidence when using the language.

Why Is It Great?

- Centralizes all learning support materials in one place.
- Offers different ways to learn: listening, reading, watching, and practicing.
- Allows students to reinforce learning outside of class time.
- Encourages independent learning and family involvement.
- Helps each student learn at their own pace and according to their preferred learning style.

Keep in mind

- Some resources include audio or video, so a stable internet connection is recommended.
- The availability of materials may vary depending on the level or product purchased.
- Many resources can be used as often as needed to reinforce learning.
- For the best results, it is recommended to explore the resources related to the unit the student is currently studying.

Recommended Devices for Preschool

For an optimal experience when navigating, viewing, and interacting with the content, the use of an iPad is strongly recommended.

Activities can also be completed on other compatible tablets; however, the user experience may vary depending on the device specifications, operating system version, screen size, and web browser being used.

My stickers

[Leer artículo en español](#)
Ver artigo em português

This section allows students to view the **digital badges or stickers** they have earned as they progress through the course activities. These rewards serve as a visual recognition of their achievements and encourage continued participation within the platform.

Stickers are digital rewards that students unlock by completing activities, achieving goals, or advancing through different course units.

Each sticker is part of the learning journey and provides a simple and engaging way to track progress and accomplishments.

Elements available in this section

- Earned stickers
- Overall sticker progress
- Progress by unit

- Completion percentage
 - Navigation between different products and units
-

How to access the Stickers section?

1. Open the product you would like to review.
 2. Click the **Stickers** tab located at the top of the screen.
 3. Select the **unit** you would like to view.
 4. View the unlocked stickers and the corresponding progress for that unit.
-

How to check sticker progress?

1. Within the **Stickers** section, locate the progress panel.
2. Review the **Stickers Progress** bar.
3. Check:
 - The percentage of progress achieved.
 - The number of stickers earned.
 - The total number of stickers available.
4. Use the navigation arrows to browse other available products or sticker collections.

Possible Statuses

- **No Stickers Earned Yet**

If no stickers have been unlocked yet, a message will appear indicating:

"You have no stickers yet."

This means that the student has not yet reached the goals required to earn a reward.

- **With earned stickers**

Stickers will appear on the screen as the student completes activities and achieves the goals established by the platform.

Benefits

- Encourages consistent participation.
- Recognizes and rewards student achievements.
- Makes it easy to track progress.
- Increases motivation to complete activities.
- Promotes learning habits and goal-setting skills.

Gamification

Gamification involves incorporating game-like elements, such as rewards, achievements, and recognition, into the learning process to increase student motivation and engagement.

Stickers are one example of these elements, helping transform learning into a more engaging and enjoyable experience.

Keep in mind

- Stickers are earned as students complete activities and achieve goals within the platform.
- The number of available stickers may vary depending on the content or level.
- The progress percentage updates automatically as new rewards are unlocked.
- If no stickers appear, students are encouraged to continue completing activities to earn more achievements and rewards.

Recommended Devices for Preschool

For the best browsing, viewing, and interactive learning experience, **the use of an iPad is highly recommended.**

Activities can also be accessed using other compatible tablets; however, the overall experience may vary depending on the device specifications, operating system version, screen size, and web browser being used.
