My Classes

[Leer artículo en español](#)

[Ver artigo em português](#)

This section allows students to access the groups or classes in which they are enrolled within the platform. From here, they can enter the learning environment assigned by their institution or teacher and access the corresponding course content.

Classes are virtual learning spaces where a student's educational experience is organized. Each class contains the materials, activities, and resources related to a specific level or group.

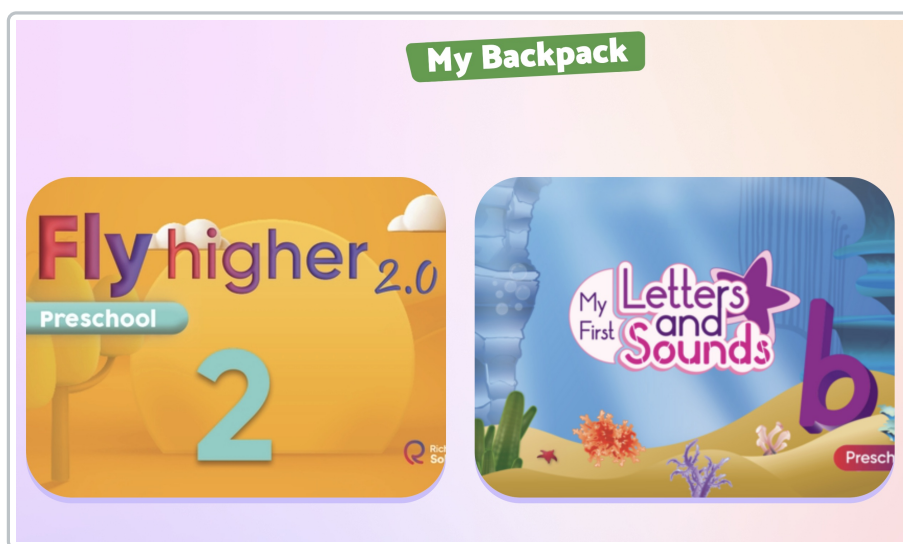

Available Information

Each class displays:

- Group name.
- Academic level.
- Direct access to content.

How to enter a class?

1. Log in to the platform using your account.
2. Go to the **My Classes** section.
3. Locate the class you want to access.
4. Click the **Enter** button.
5. Access the content and resources available for that class → [My Backpack](#).

Why is it great?

- Provides quick access to assigned classes.
- Keeps learning materials organized.
- Makes it easier to track the student's academic progress.
- Offers direct access to all course-related resources.

Keep in mind

- The number of visible classes will depend on the assignments made by the institution.
- Some students may have access to more than one class.
- The available content may vary depending on the educational level and program.

Recommended Devices for Preschool

For an optimal experience when navigating, viewing, and interacting with the content, **the use of an iPad is recommended.**

Activities can also be completed on other compatible tablets; however, the experience may vary depending on the device's specifications, operating system version, screen size, and web browser used.

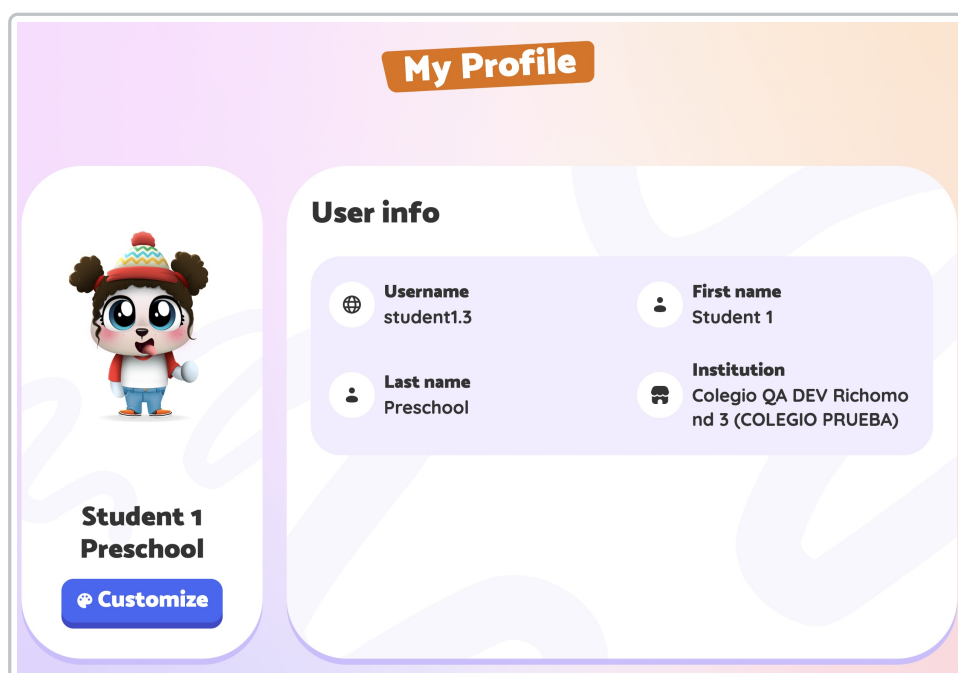

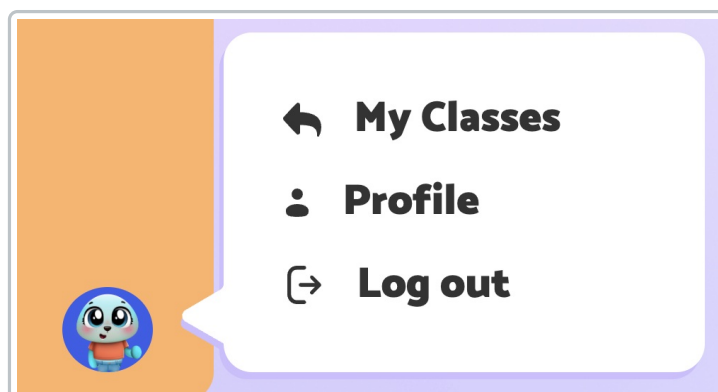

Profile

[Leer artículo en español](#)

[Ver artigo em português](#)

This section allows students to view their basic account information and customize their avatar within the platform. This space helps create a more engaging and enjoyable experience by allowing each student to represent their identity through a customizable character.

What Is My Profile?

It is the section where students can find their general account information, such as:

- Username
- Student's name
- Educational institution
- Customized avatar
- Available personalization options

It allows students to modify their character's appearance using different visual elements.

How to Access My Profile?

1. Click on the avatar located in the upper corner of the platform.
2. The **My Profile** screen will open.
3. Review the student's available information.
4. If you want to personalize the avatar, click the **Customize** button.

Information Available in My Profile

- **Avatar:** Visually represents the student within the platform.
- **Username:** The identifier used to access and use the platform.
- **Student Name:** The name associated with the account.
- **Institution:** The educational institution to which the student belongs.

How to Customize the Avatar?

1. Within **My Profile**, select **Customize**.
2. The avatar editor will open.
3. Select the category you want to modify. Available options include:
 - Facial features
 - Eyes
 - Nose
 - Mouth
 - Accessories
 - Clothing
 - Special customization kits
4. Click on the item you want to apply.
5. Preview the changes in real time on the avatar.
6. Explore other categories until you achieve the desired appearance.
7. Click **Save**.

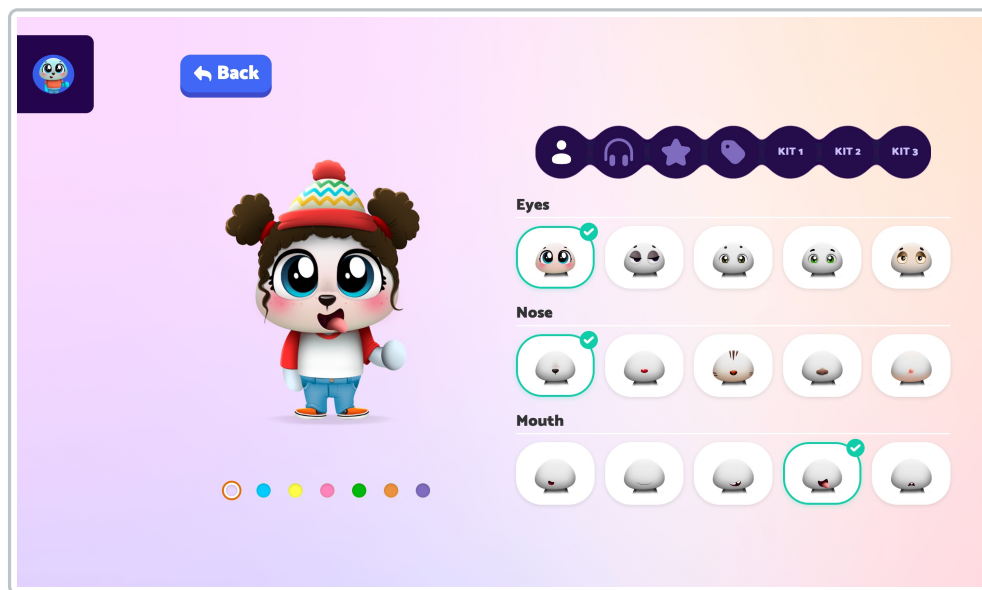

Color Customization

1. The platform allows you to change certain avatar colors.
2. Locate the available color palette.
3. Select the desired color.
4. The avatar will automatically update to reflect the new selection.

What Are Kits?

Kits are collections of customization items grouped by theme or design.

These kits provide additional options for personalizing the avatar.

Avatar

An **avatar** is a digital character that represents a user within a platform. It can be customized to reflect personal tastes and preferences through different visual features.

Why is it great?

- Allows each student to have a unique visual identity.
- Makes the platform experience more fun and interactive.
- Encourages creativity through customization.
- Makes it easier to quickly identify the account.
- Motivates students to engage more with the digital learning environment.
- Offers multiple combinations to create a unique avatar.

Keep in mind

- Some customization options may depend on the student's level or the content available.

- Changes made to the avatar will be reflected throughout the platform.
- It is recommended to choose elements that make the student's account easy to identify.
- The avatar is a visual representation and does not modify any academic or school information recorded on the platform.

Recommended Devices for Preschool

For an optimal experience when navigating, viewing, and interacting with the content, **the use of an iPad is recommended.**

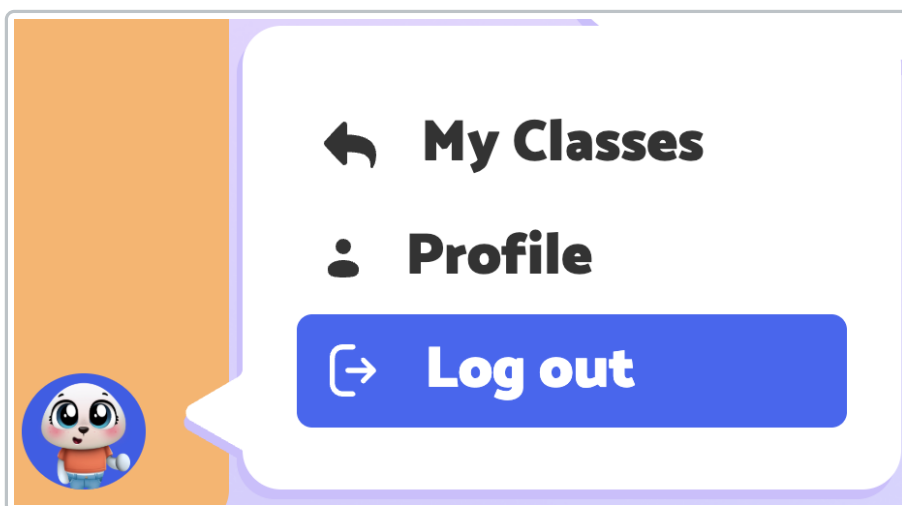

Activities can also be completed on other compatible tablets; however, the experience may vary depending on the device's specifications, operating system version, screen size, and web browser used.

Log out

[Leer artículo en español](#)
[Ver artigo em português](#)

The Log Out option allows users to securely exit the platform. It is recommended to use this feature after finishing a session, especially when accessing the platform from shared devices. Logging out helps protect the student's information and prevents unauthorized access.

Log Out is the feature that ends the user's active session on the platform and redirects them to the login screen.

How to log out?

1. Click on the avatar or profile picture located within the platform.
2. A menu will open with the following options:
 - a. My Classes
 - b. Profile

c. Log Out

3. Select **Log Out**.

4. Your session will be closed automatically.

5. You will be redirected back to the login screen.

When is it recommended to log out?

It is recommended to do so when:

- You have finished using the platform.
- You are using a shared device.
- You are accessing the platform from a public computer.
- You want to switch to a different user or account.

Why is it great?

- Keeps the account secure.
- Prevents other people from accessing the student's information.
- Allows users to easily switch between different accounts.
- Helps protect data privacy and security.
- Ensures a safer user experience on any device.

Keep in mind

- You will need to log in again with your username and password to access the platform after signing out.
- If you are using a shared device, it is recommended that you always sign out when you finish.
- Signing out does not delete any information, activities, or progress completed within the platform.
- All saved progress and work will remain available when you sign back into your account.

Recommended Devices for Preschool

For an optimal experience when navigating, viewing, and interacting with the content, **the use of an iPad is recommended.**

Activities can also be completed on other compatible tablets; however, the experience may vary depending on the device's specifications, operating system version, screen size, and web browser used.
